**Item 8.01. Other Events.**

On November 8, 2024, Volcon, Inc. (the "Company") completed a one-for-eight reverse stock split of its common stock. In connection with the approval of the reverse stock split, the Company agreed that no fractional shares will be issued in connection with the reverse stock split and that it would issue one full share of the post-reverse stock split common stock to any stockholder who would have been entitled to receive a fractional share as a result of the process. On November 19, 2024, the Company received notice from DTCC on behalf of the brokerage firms that hold the shares of Company common stock held in "street name" that in connection with the foregoing rounding of shares the Company would need to issue 188,950 shares of common stock. The Company does not believe the number of shares being requested is correct based on the historical number of shareholders of its common stock and is aware of similar occurrences in recent months for other companies completing a reverse stock split. As such, the Company has begun an inquiry into the calculations set forth in the request. During the pendency of this inquiry, the Company does not intend to issue any shares in connection with the fractional shares being requested. The Company may face potential liability for its failure to issue the shares of common stock if it is determined that it is required to issue such shares.
